

GENERAL INFORMATION

This Parts Catalog has been prepared for your convenience when ordering parts for the 1995 and 1996 1340cc models. This format allows you to compare the parts usage on all FLT, Softail and Dyna model motorcycles. Refer to the Glossary at the end of the book for unfamiliar abbreviations. A complete Hardware Listing is also featured. Index numbers shown in the illustrations correspond to index numbers in parts lists. Consult the illustrations when ordering parts so you are sure to get the part required. The number in parenthesis following description of parts is the quantity needed for complete assembly. If there is no number in parenthesis, only one is used. Prices of parts in this catalog are published separately.

The following instructions should be followed carefully when ordering parts.

- The model usage column has a two character code, corresponding to the V.I.N. Model Designation. If the part fits all models "All" will be in the appropriate model usage column. The models classified as FLT, Softail or Dyna and the two character codes are listed at the bottom of each right hand page.

- Specify the correct part number for each item. Check the "Used On" column of the parts list which shows the model on which the part fits. Whenever in doubt, refer to the Vehicle Identification Number (V.I.N.). A 17 digit V.I.N. is stamped on the front of the frame and frame right downtube label. An abbreviated V.I.N. is stamped on the left engine crankcase.

Always give one of these numbers when ordering parts or making any inquiry about your motorcycle.

- An asterisk (*) in the "Used On" column indicates part is used through the current model year.

- Orders may be placed via your computer, fax or phone for all parts except engines, crankcases and frames. Order form, Part No. 99514-76, must be used for engines, crankcases and frames. All non-warranty replacement crankcase orders must have the corresponding complete left crankcase half included with the order. All non-warranty replacement frame orders must have the corresponding steering neck with V.I.N. included with the order.

This exploded view diagram illustrates the assembly of a vehicle's rear hatch. The main components shown are the upper hatch panel (56) and the lower cargo area (27). The diagram includes numerous numbered callouts for specific parts, such as hinges (14, 16, 18, 20, 22, 24, 26, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66), latches (61, 63, 65), and structural reinforcements (1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 15, 17, 19, 21, 23, 25, 28, 29, 31, 33, 35, 37, 39, 41, 43, 45, 47, 49, 51, 53, 55, 57, 59, 60, 61, 62, 63, 64, 65, 66). The diagram also shows the internal structure of the hatch, including the hinge mechanism (14, 16, 18, 20, 22, 24, 26, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66) and the latch assembly (61, 63, 65). The diagram is a technical drawing showing the relationship between various components of the hatch assembly.
